

Buyers let dirt fly at groundbreaking

Buyers of units in the downtown MoZo Modern Living Zone helped with the recent groundbreaking for the condominium being built on the northwest corner of King St. E. at Sherbourne.

About 50 purchasers, each equipped with a spade, let the dirt fly at the

Nov. 16 event. The Context Development Inc. project is about 80 per cent sold with a first occupancy date expected in 18 to 20 months. Prices in the 15-storey building range from \$179,900 for a 678 square foot unit to \$799,900 for a two-bedroom 2,352 square foot penthouse.
