Decorating a new home

Niven gives tips on decor for downtown living

More than 75 people gathered recently at Context Development's Radio City Presentation Centre on Jarvis Street to listen to advice on how to prepare for moving into and decorating a

brand new condominium in downtown Toronto.

Mike Niven of Mike Niven Design spoke to many new and prospective condo purchasers and gave them tips on arranging furniture to

enhance the size of a living room and take advantage of natural light.

Other advice included ways to reduce the noise level from suite to suite, and choose the right appliances for a particular lifestyle.
